

WOOLWICH SLEDGE HOCKEY

ADVANCED SLEDGE HOCKEY SKILLS PROGRAM

This program is for people with previous sledge hockey experience who are looking to enhance their skills as a player, or re-establish themselves in the sport.

This program will be run at the same time as the **learn to skate/learn to play** hockey program. The ice will be divided to accommodate both groups.

(In future-if we receive more funding and our numbers of people participating increase-the groups may be split so they do not have to share the ice surface).

This program is also open to any player with a disability currently or previously involved in the sport regardless of where you live in the province. (Under OSHA guidelines it is understood individuals may practice where they desire).

This ice time will provide additional /alternate opportunities to develop/enhance your skills. **This ice time may also be of interest to players developing for elite teams.**

There may be opportunity to play games within the Ontario Sledge Hockey league (depending on numbers of interested participants).

Keith Metzger will be coaching the ice time with assistance from volunteers with a hockey background. Keith has ten + years experience coaching sledge hockey at various levels.

The goal of this program is to provide a recreational sledge hockey program within various levels of ability, developing toward an organized team for league play. We will work hard to accommodate the individual needs of each participant recognizing the uniqueness of each person with a disability, and strive to develop them to be the best they can be.
