

## WOOLWICH SLEDGE HOCKEY

### **LEARN TO SKATE/LEARN TO PLAY HOCKEY PROGRAM**

This program is for children or adults learning to skate/play hockey.

This program will be run at the same time as the advanced player program.

The ice will be divided to accommodate both groups.

(In the future – if we receive more funding and our numbers of people participating increase – the groups may be split so they do not have to share the ice surface).

All Sledge Hockey programs are run by volunteers with an interest in hockey.

Volunteers will be available to assist both groups – however the number of volunteers will only be based on the number of participants.

For very young participants it is recommended that a family member participate on the ice with them for the first while until they become comfortable with the environment and volunteers they will be paired with.

Our vision is to promote the best opportunities in sledge hockey **for individual player development**, striving for excellence in player ability.

*We will work hard to accommodate the individual needs of each participant recognizing the uniqueness of each person with a disability, and strive to develop them to be the best they can be.*
